

Seabourn's New Constellation Lounge To Feature Stunning 270-Degree Views On Its New Ultra-Luxury Expedition Ships

January 23, 2020

SEATTLE, Jan. 23, 2020 /PRNewswire/ -- [Seabourn](#), the world's finest ultra-luxury travel experience, will soon be offering guests a breathtaking perspective on the sights in the most coveted and remote destinations in the world. Introducing the **Constellation Lounge**, a viewing lounge located up high and forward to be featured on each of the line's two new purpose-built expedition vessels that are scheduled to launch in 2021 and 2022 respectively.

Designed along the lines of the Observation Bar, among the most popular venues on every ship in the current Seabourn fleet, the Constellation Lounge will debut with the launch of [Seabourn Venture](#) in June 2021, and follow on the yet to be named sister expedition ship in May 2022. The name of the new lounge reflects the heavenly direction of the space, which is dressed up in constellation-inspired interiors, fashioned by hospitality design icon [Adam D. Tihany](#), including dark carpeting laid out with bright constellation patterns. In addition, the furniture is being created and designed by Tihany Product Design. The name – Constellation Lounge - was last used on *Seabourn Pride* and is a nod to the heritage of luxury hospitality built over more than 30 years of operation.

Located on Deck 9 forward, the Constellation Lounge will be the highest indoor viewing point on each ship. Floor-to-ceiling glass walls will wrap around the space, offering guests stunning 270-degree, outward-facing views as far as their eyes can see, heightening their expeditionary spirit while bringing them closer to wildlife and wonders at sea and in port. In addition, the expedition team will be in the lounge regularly to help identify points of interest, wildlife and geological wonders. Imagine glimpsing killer whales, waddling penguins, and sea lions in Antarctica; sleepy-eyed sloths, sprightly monkeys, and colorful parrots in the rainforests of South and Central America; and icebergs bobbing in the seas and waterfalls rushing over cliffs in the far reaches of the Arctic and Northern Europe – all from the comfort of the Constellation Lounge.

"The Constellation Lounge creates a scene all its own on our new expedition vessels, inviting guests into a stunning space with myriad delights to enjoy from morning into the night," said **Richard Meadows, president of Seabourn**. "The design of the space inspires, just like the sky above. It will play out as an ideal setting to relax, unwind, and review the day while soaking up amazing views."

The rich red and blue palette of the Constellation Lounge will be accented by silver and bronze details from throw pillows to bar stool stands, while velvety banquettes and comfortable, sleek, sling-back lounge chairs will contribute to a seductive and relaxed environment that encourages guests to kick back, converse, and enjoy.

The captivating central bar of the Constellation Lounge will be a destination on its own, with striking textured marble and a unique geometrical faceted metal bar front. Taking inspiration from the skies above, lighting elements will create star-like lighting patterns across the ceiling. The featured art of the Constellation Lounge echoes the geometrical elements of the space with an ode to historical maps of the night sky.

The Constellation Lounge will offer Seabourn's popular Early Morning Riser continental breakfast, while afternoons will feature the line's popular and recently enhanced Afternoon Tea service. Steeped in the tradition of proper English tea service, yet as fresh and memorable as a newly brewed pot, the elegant daily tea service incorporates the finest luxury tea brand TWG Tea. As the sun dips and the night sky lights up, live piano entertainment will delight guests as cocktails and tapas are served both before and after dinner.

Seabourn Venture and its sister expedition ship will feature 132 luxurious oceanfront veranda suites. Renderings of the new ships, suites and public spaces of the ship can be found in the link [here](#). More details about other dining, social venues and public spaces will continue to be revealed in the coming months. Itineraries for the first season of travel aboard *Seabourn Venture* are now open for booking on the [Seabourn](#) website.

Seabourn continues to represent the pinnacle of ultra-luxury travel with intimate ships offering key elements that set the line apart: spacious, thoughtfully appointed suites, many with verandas and all 100% ocean front; superb dining in a choice of venues; complimentary premium spirits and

fine wines available on board at all times; award-winning service and a relaxed, sociable atmosphere that makes guests feel right at home on board. The ships travel the globe to many of the world's most desirable destinations, including marquee cities, more than 170 UNESCO World Heritage Sites, and lesser-known ports and hideaways. The company is the Official Cruise Partner of UNESCO World Heritage as part of a multi-year agreement to promote sustainable tourism at World Heritage properties.
